

Scottish Universities Life Science Alliance

Advancing Scotland's Life Science Sector through Strategic Collaboration

Talent

By investing in our talent, that enable research and innovation to happen, we make Scotland globally competitive, the place to come for Life Science

Research

Collaboration

By driving strategic collaboration across disciplines, sectors and borders we support economic recovery and help build Scotland back better

Research

By supporting translational and transformative research we benefit our society and our environment to build a better future

Culture

By breaking down barriers we progress research culture and foster an inclusive environment without limits
